

Hong Kong Mahjong Scoring Sheet

香港麻雀正統牌型

How to Use

- Your hand's Fan score is the SUM of the Fan of all matching features.
- **Indented features REPLACE the parent feature — count the child only, never both.**
- Unless stated otherwise, triplets and quadruplets are interchangeable.
- A red triangle marks the winning tile. Calculate payout on the Payment Table.
- **† marks hands whose rules vary by table — MCR or Taiwanese imports. Agree them before the first deal.**

† Only played in certain variants — agree these before the first deal. Kong, Knitted Tiles, Lesser Honours and Greater Honours follow MCR (Chinese Official) scoring; Seven Pairs and Luxury Seven Pairs come from Taiwanese play.

Win Actions

1

Self-Pick 自摸

You select your winning tile from the wall.

2

Win by Kong Replacement 槓上開花

The winning tile is a replacement tile drawn after declaring a Kong (four of a kind).

Replaces Self-Pick — score 2, not 2 + 1.

Mixed Flush 3 + Dragon 1 + Kong Replacement 2 = 6 Fan

9

Double Kong Replacement 槓上槓

Call a Kong, call a second Kong using the replacement tile, then win on the second replacement.

Replaces Self-Pick and Win by Kong Replacement — score 9 only.

Mixed Flush 3 + Dragon 1 + Double Kong 9 = 13 Fan (limit)

1

Concealed Hand 門前清

You did not take any tiles from other players in order to win.

1

Robbing the Kong 搶槓

You win by interrupting another player upgrading a Pong (a triplet) to a Kong using your winning tile.

Mixed Flush 3 + Dragon 2 + Robbing the Kong 1 = 6 Fan — all four copies are in their Kong, so the robbed tile must complete a sequence

1

Moon Under The Sea 海底撈月

Your winning tile was the last tile in the wall or the last discard.

Hands by Set Type

1

All Sequences 平糊

All four sets are sequences, plus a pair, which may be honours.

All Sequences 1 = 1 Fan — on its own this sits below a 3 Fan table minimum

3

All Triplets 對對糊

All four sets are three of a kind, plus a pair.

All Triplets 3 = 3 Fan, or 4 Fan if 東 is your seat or the round wind

8

All Concealed Triplets 四暗刻

All sets are triplets and no tiles taken from other players. Win by self-pick, or by taking a discard that completes the pair. Claiming a discard to finish a triplet would expose that set — you still win, but with only three concealed triplets the hand downgrades to All Triplets 3.

Replaces All Triplets — score 8, not 8 + 3.

All Concealed Triplets 8 = 8 Fan, or 9 if 北 is your seat or the round wind — All Triplets 3 is replaced, and concealment is required, so Concealed Hand is built in

13

All Quadruplets 四槓子

All four sets are quadruplets, plus a pair. Kongs may be claimed from discards. A discard that completes your fourth Kong is not a win — declare the Kong, draw a Replacement Tile, and win on that, or on a later discard once all four Kongs are down and only the pair is open.

Replaces All Triplets.

All Quadruplets 13 = 13 Fan — the limit; the 中 Kong and All Triplets are not added

Hands by Tile Type

1x

Dragon 三元牌

A triplet of dragon tiles. Any one of the three below scores on its own, and each one you hold scores again.

Red 1 Fan Green 1 Fan White 1 Fan

One triplet = 1 Fan. Two = 2 Fan. All three is Big Three Dragons 8, which replaces this.

5

Small Three Dragons 小三元

Two dragon triplets and a pair of the third dragon.

Replaces the per-triplet Dragon score — score 5 flat.

Small Three Dragons 5 + Mixed Flush 3 = 8 Fan — the per-triplet Dragon score is replaced, not added

8

Big Three Dragons 大三元

Three dragon triplets.

Replaces Dragon and Small Three Dragons — score 8 flat.

Big Three Dragons 8 = 8 Fan — Dragon and Small Three Dragons are replaced; two suits here, so no Mixed Flush

Hands by Tile Type (continued)

1x

Round Wind / Seat Wind 圈風 / 門風

A game runs four rounds — East, South, West, North. A triplet of the current round's wind, or of your own seat wind, scores. Each of the four below counts **only** if it is one of those two for you.

East 1 Fan South 1 Fan West 1 Fan North 1 Fan

東東東

南南南

西西西

北北北

A triplet of the other two winds scores nothing. One triplet that is both the round wind and your seat wind = 2 Fan.

6

Small Four Winds 小四喜

Three wind triplets and a pair of the fourth wind.

Replaces Round / Seat Wind — score 6 flat.

東東東 南南南 西西西 北北

Small Four Winds 6 + Mixed Flush 3 = 9 Fan — the Round / Seat Wind score is replaced, not added

13

Big Four Winds 大四喜

Four wind triplets.

Replaces Round / Seat Wind and Small Four Winds.

東東東 南南南 西西西 北北北

Big Four Winds 13 = 13 Fan — the limit; All Triplets 3 and Mixed Flush 3 are not counted on top

3

Mixed Flush 混一色

Your hand contains only one suit plus honours (winds & dragons). Can have both pongs and chows (sequences).

一萬 二萬 三萬 四萬 五萬 六萬 七萬 八萬 九萬 中中中 東東

Mixed Flush 3 + Dragon 1 = 4 Fan — the 東 pair scores nothing, only a triplet would

7

Full Flush 清一色

Your hand contains only one suit. Can have both pongs and chows (sequences).

Replaces Mixed Flush — score 7, not 7 + 3.

三萬 三萬 三萬 四萬 四萬 四萬 五萬 五萬 五萬 六萬 六萬 六萬

Full Flush 7 = 7 Fan — Mixed Flush 3 is replaced, not added

Hands by Tile Type (continued)

Mixed Terminals 混么九

Your hand contains only ones, nines and honours (winds & dragons). 3 Fan from All Triplets is included.

Mixed Terminals 4 + Dragon 1 = 5 Fan — the All Triplets 3 is already inside the 4

All Terminals 清么九

Your hand contains only ones and nines. 3 Fan from All Triplets is included.

Replaces Mixed Terminals and All Triplets.

All Terminals 13 = 13 Fan — the limit; Mixed Terminals 4 and All Triplets 3 are replaced, not added

All Honours 字一色

Your hand contains only honour tiles (winds & dragons). 3 Fan from All Triplets is already included.

Replaces Mixed Terminals and All Triplets. No suit tiles, so Mixed Flush does not apply.

All Honours 10 + Small Three Dragons 5 = 15, capped at the 13 Fan limit — 中中中 發發發 白白 is Small Three Dragons

Kong 榿

Each quadruplet scores. A concealed Kong is worth more, since no one helped you build it.

open — 1 Fan each concealed — 2 Fan each

A concealed Kong shows its outer tiles face down. Four Kongs is All Quadruplets 13, which replaces this

Special Hands

Seven Pairs † 七對子

Seven different pairs. Can stack with Mixed Flush, Full Flush and All Honours.

three suits — 4 Fan *

with Mixed Flush — 7 Fan **

with All Honours — 13 limit ***

* Seven Pairs 4 = 4 Fan alone. ** + Mixed Flush 3 = 7 Fan, or + Full Flush 7 = 11. *** + All Honours 10 = 14, capped at the 13 Fan limit. You can never Pong or Chow here, so Concealed Hand is built in

Luxury Seven Pairs † 豪華七對

A Seven Pairs hand in which four identical tiles stand as two of the seven pairs.
Scores for each such set.

Seven Pairs 4 + Luxury 2 = 6 Fan. A Kong breaks it. Dragon Fan needs a triplet, so an honour quad adds nothing; Concealed Hand is built in

Knitted Tiles + 組合龍

Special run made in this sequence: 1-4-7 in one suit, 2-5-8 in the second, 3-6-9 in the third — nine tiles "knitted" across the suits. Plus one ordinary set and a pair.

Knitted Tiles 5 = 5 Fan — three suits, so no flush, and 中中 scores nothing. The non-knitted set may be Ponged or Chowd; Concealed adds 1

Special Hands (continued)

8

Lesser Honours † 全不靠

Fourteen single tiles, no set and no pair. A mix of honour tiles (winds & dragons) and knitted runs (1-4-7, 2-5-8, 3-6-9), one to each suit. There are only two shapes: 9 knitted + 5 honours, or 8 knitted + 6 honours.

all 9 knitted + any 5 honours

any 8 knitted + any 6 honours

Lesser Honours 8 = 8 Fan. With no sets there is nothing to claim, so Concealed Hand is built in. Self-Pick and flowers still do.

10

Greater Honours † 七星不靠

Must have all seven honours (winds & dragons) as singles plus **any** seven knitted tiles — fourteen singles, no set and no pair.

Greater Honours 10 = 10 Fan. Concealed by definition, so Concealed Hand is built in. Self-Pick and flowers still do.

13

Thirteen Orphans 十三么

One of each 1 and 9 from all three suits, and one of each of the seven honours (winds & dragons), plus one extra duplicate of any tile in the hand. Concealed by definition.

Thirteen Orphans 13 = 13 Fan — the limit, so nothing adds on top

13

Nine Gates 九蓮寶燈

111 2345678 999 of a single suit. The winning tile can be any 1 to 9 of that suit — nine ways to win, hence the name. Must be fully concealed.

Nine Gates 13 = 13 Fan — the limit; the Full Flush 7 inside it is not added

13

Blessing of Heaven 天糊

As dealer, your beginning hand wins.

Blessing of Heaven 13 = 13 Fan — the pattern needs no Fan of its own, so even a chicken hand wins

Special Hands (continued)

13 Blessing of Earth 地糊

As non-dealer, you win using the dealer's first discard.

Blessing of Earth 13 = 13 Fan — the pattern needs no Fan of its own, so even a chicken hand wins

13 Blessing of Man 人糊

As non-dealer, you win on your first turn with a self-pick.

Blessing of Man 13 = 13 Fan — the pattern needs no Fan of its own, so even a chicken hand wins

Bonus Tiles (Flowers & Seasons)

1 No Flowers or Seasons 無化

You drew none of the eight bonus tiles all hand. Nothing to show — the Fan is for their absence.

1x **Seat Flower or Season 正花**

1 Fan for each flower or season matching your seat number. East is 1, South 2, West 3, North 4.

2 All Flowers or All Seasons 一槿花

You have all four flowers, **or** all four seasons. A mix of four bonus tiles taken from both groups does not count.

3 Seven Flowers 花糊

Collect seven of the eight bonus tiles (flowers and seasons) and you may win at once, no matter what your hand holds.

8 Eight Flowers 大花糊

Collect all eight bonus tiles and you may win at once, no matter what your hand holds.

Reference 牌章

Suits

Dots 筒子 tung zi									
Sticks 索子 sok zi									
Man 萬子 maan zi									

Honours and Bonus Tiles

	East	South	West	North
Winds 風 fung				
	Hung Zung	Faat Coi	Baak Baan	
Dragons 三元 saam jyun				
	Plum	Orchid	Mum	Bamboo
Flowers 花 faa				
	Spring	Summer	Autumn	Winter
Seasons 季 gwai				

Payment Table (New Style)

Fan	Points	Fan	Points
0	1	7	48
1	2	8	64
2	4	9	96
3	8	10	128
4	16	11	192
5	24	12	256
6	32	13+	384

This table uses "discarder pays all" (全銃制), which increases the penalty for discarding another player's winning tile.

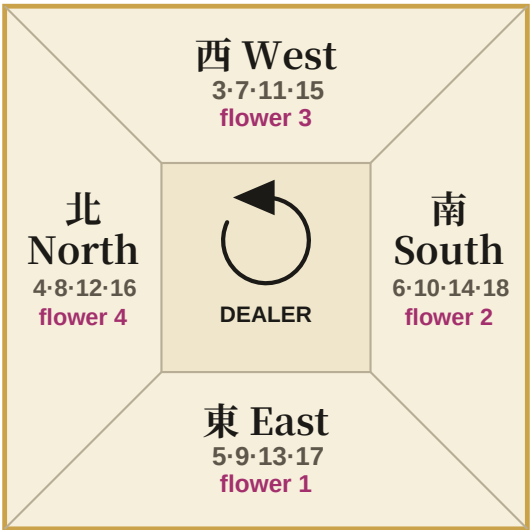

Self pick: all three players pay the points for your Fan total.

Discard: only the discarder pays, at 2x the points.

Older tables share that cost instead — the discarder pays double and the other two pay single each, for the same total.

With chips, paying the Fan count (5 Fan = 5 chips) is quicker but flattens rewards: a limit hand pays 13, not 384.

Seating and Flower Numbers

Your seat number tells you which flower and season are yours for 正花 (Seat Flower). East is 1, South 2, West 3, North 4.

Cantonese Terms

Mahjong	麻雀 ma zoek
Chow	上 soeng
Pong	碰 pung
Kong	槓 gong
Win from Self Pick	自摸 zi mo
Win from Discard	食糊 sik wu
Chicken (0 Fan) Hand	雞和 gaai wu

Fan values and structure follow the HKMJ Cheat Sheet v1.0 (3 April 2025) by /u/danma. The six hands marked † are added here, with values from MCR (Chinese Official) or Taiwanese play. Tile examples, Fan breakdowns and notes by J. Lee.

Terminology

A winning hand is four sets (melds) and a pair. Sets are a sequence, a triplet, or a quadruplet.

Sequences are three tiles of one suit in order (1-2-3 up to 7-8-9). Complete one from the player on your left by calling Chow.

Triplets are three identical tiles, completed from any player's discard as a Pong.

Quadruplets are four identical tiles, completed as a Kong. A self-formed quadruplet is a Concealed Kong. When declaring any Kong, draw a Replacement Tile from the dead end of the wall.

Hong Kong style usually plays with a Minimum Fan, commonly 3. Below it you cannot declare a win.

Scoring is also capped at a Limit, commonly 13 Fan. A hand worth more than the Limit simply pays the Limit.

Stacking Reference 番組合

Each figure is the resulting TOTAL Fan for the whole hand, not the amount added; an arrow marks a total held at the 13 Fan Limit.

Mixed Flush

3 Fan

one suit plus honours (winds & dragons)
